## Germany's Actual Price Level. the case runs thus:

Measured in depreciated paper marks, which in gold are worth less than half an American cent each, the cost of living in Germany to-day has risen to twenty times what it was in 1914. Prices in the United States are less than twice as high as they were in 1914, the latest official index number showing an average of 178 for the whole country. But because prices have gone up more than twenty times in Germany and are up one and threehigh as American prices when both this it was held that the law was Italian Ambassador at Washington. are reckoned in gold or in undepre- constitutional at that time because clated United States dollars.
